

May 22, 2020

Dear Pathways Parents and Students,

It's been a great distance learning week and I'm so happy to see so many of you progressing well in your classes. I wanted to take a moment and give props to the students who are working so hard to graduate this summer. Great work! Some of you are even completing ten units a month! If you are wondering about your child's progress please contact me and/or their teacher when you have a moment.

At this point, it looks like we won't all be in the building together until August, but please remember we are a year-round school and we need to strive to complete at least 5 units per month through the summer months. Again, if you're not sure how many units your student is completing, please reach out to me and/or your child's teacher. In order to stay on track, all students should be completing at least 5 units per month. Please contact me if you don't have your contact information for your child's teacher.

Let's make it a great week!

Jon Keith
Principal
